

The image features a large red triangle on the left side, containing the text. The background is a photograph of two fencers in white gear competing on a wooden floor. One fencer is in a lunge, with their right leg extended forward and left leg back, holding their foil high. The other fencer is partially visible on the right, also in a lunge. The lighting is dramatic, with strong highlights and deep shadows.

SPORT80

- *Club Transfers*

We have activated a new feature within sport80 that allows members to move clubs via a transfer system. This means that clubs can now track members affiliations and gain a better understanding of their club

Members can request transfers via their own membership profile, these would then need to be approved by both clubs to be actioned

Clubs also have a 'Block' feature which can be used to prevent member from affiliating with their club

All features can be found in the left-hand menu on the club profile on sport80
